POST-OPERATIVE NOTE

The patient is status post arthroscopy of the right knee on 08/25/2022 and comes today for postoperative follow-up. The patient comes from Gordon C Davis Medical PC, 1611 East New York Ave, Brooklyn, NY 11212.

There is no evidence of any drainage, redness, or discharge from the surgical site.

There is no swelling or edema.

There is no wound dehiscence or complications.

There is no calf tenderness.

There is negative Homans sign.

The patient is afebrile.

The patient had I and D and closure on 08/04/2022.

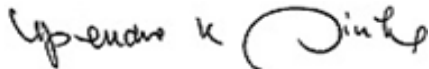

The patient is not going to physical therapy for her right knee and right shoulder (was told no benefit left).

The patient has regained almost 80% of mobility.

The patient is ambulating and full weight-bearing without any support.

The patient was advised physical therapy 3 times a week for 4 weeks to regain full mobility of the right knee.

The patient is to return to office in 4 weeks.
