

Exam requested by: GORDON DAVIS DO 1611 E NEW YORK AVE BROOKLYN NY 11221

SITE PERFORMED: MILL BASIN SITE PHONE: (718) 220-2500

Patient: BRASWELL, MAURICE Date of Birth: 04-22-1967 Phone: (929) 407-5458

MRN: 3445865DS Acc: 1024966639 Date of Exam: 10-13-2022

EXAM: CT RIGHT KNEE WITHOUT CONTRAST

Note - This patient has received 0 CT studies and 0 Myocardial Perfusion studies within our network over the previous 12 month period.

HISTORY: Recent motor vehicle collision.

TECHNIQUE: Multiple axial CT images were obtained through the right knee without the use of intravenous contrast. Coronal and sagittal images were reconstructed from the axial data. No 3-D images were generated. One or more of the following dose reduction techniques were used: automated exposure control, adjustment of the mA and/or kV according to patient size, use of iterative reconstruction technique.

COMPARISON: Radiographs from 2017.

FINDINGS:

Osseous structures: No fracture or dislocation. No lytic or sclerotic lesions. Bullet fragments in the medial femoral condyle and scattered throughout the joint space.

Joints: Severe medial compartment osteoarthritis. Mild lateral compartment osteoarthritis. Mild patellofemoral compartment osteoarthritis. No meniscal calcification or ossification. Small knee joint effusion. No popliteal cyst.

Tendons and ligaments: No tendon or ligament thickening or obvious fat-filled or fluid-filled tears within the limits of CT technique.

Extensor mechanism enthesopathy.

Fat pads: Normal.

Subcutaneous tissues: No edema or fluid collection. No mineralization.

Muscles: No selective muscle atrophy or attenuation abnormality. No mineralization.

BRASWELL, MAURICE (Exam: 10-13-2022 11:40 AM)

Continued: Page 2 of 2

Patient: BRASWELL, MAURICE

Date of Birth: 04-22-1967

IMPRESSION: CT of the right knee demonstrates:

Tricompartmental osteoarthritis, severe in the middle compartment.

No fracture of dislocation.

Bullet fragments in the medial femoral condyle and scattered throughout the joint space.

Thank you for the opportunity to participate in the care of this patient.
